## D I E N S T Z E U G N I S

Herr Thomas Scheiber, geboren am 22. Mai 1998, wohnhaft in 1200 Wien, Universumstrasse 50/28 war in der Zeit von 1. März 2022 bis 15. März 2023 in unserer Gesellschaft als IT Consultant beschäftigt.

Das Aufgabengebiet von Herrn Thomas Scheiber umfasste folgende Tätigkeiten:

- Betreuung unserer internen und externen Kunden und Kundinnen im Bereich der Planung sowie Implementierung, Administration, Wartung und Weiterentwicklung von Windows Server Systemen
- Laufender 1st und 2nd Level Support für Kunden und Kundinnen via Fernwartung sowie vor Ort
- Installation und Wartung von Systemen
- Beschaffung und Verwaltung von Softwarelizenzen
- Optimierung und Weiterentwicklung von bestehenden IT-Lösungen
- Mitarbeit bei IT- und Organisationsprojekten

Herr Thomas Scheiber hat die ihm übertragenen Aufgaben stets zu unserer vollsten Zufriedenheit erledigt. Sein persönliches Verhalten war stets vorbildlich, sodass er von Vorgesetzten sowie Kollegen und Kolleginnen sehr geschätzt wurde.

Herr Thomas Scheiber scheidet auf eigenen Wunsch aus unserem Unternehmen aus. Wir danken ihm für die stets sehr gute Zusammenarbeit und wünschen ihm für seinen weiteren Berufs- und Lebensweg weiterhin alles Gute.

Mit freundlichen Grüßen

Mazars IT Services GmbH

has successfully completed the online, non-credit Professional Certificate

# Meta Front-End Developer

This 9-course program prepares learners for an entry-level career as a front-end developer.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

**THOMAS SCHEIBER**

has successfully completed the online, non-credit Professional  
Certificate

# AWS Cloud Solutions Architect

This program arms you with the skills you need to accelerate your career in cloud architecture and provides a pathway to earn the AWS Certified Solutions Architect – Associate certification. You'll deploy solutions, including infrastructure components such as networks, systems and applications services, and you'll gain real world experience through hands-on projects. Upon successful completion of this program, you will earn a certificate of completion to share with your professional network and potential employers. Please note that this program helps equip you with the skills you need to take the certification exam, but additional study and training may be required before taking the exam.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

**THOMAS SCHEIBER**

has successfully completed the online, non-credit Professional  
Certificate

# Google IT Automation with Python

This six-course certificate, developed by Google, is designed to provide IT professionals with in-demand skills -- including Python, Git, and IT automation -- that can help them advance their careers. The hands-on curriculum is designed to teach learners how to write code in Python, with a special focus on how this applies to automating tasks in the world of IT support and systems administration. Those who received this certificate passed all graded assessments with a score of 80% of above. They should have a strong foundation in how to use Git and GitHub, troubleshoot and debug complex problems, and apply automation at scale by using configuration management and the Cloud in order to prepare them for more advanced IT Support Specialist or Junior Systems Administrator positions.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

Certificate

## Google IT Support

Those who earn the Google IT Support Professional Certificate have completed five-courses, developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for entry-level roles in IT support. They are competent in foundational skills, including troubleshooting and customer service, networking, operating systems, system administration, and security.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
